

# Everyone has a Risk Number. What's yours?

Find out in a few steps using our  
Free Portfolio Risk Analysis.

We use an award-winning technology that quantifies your acceptable levels of risk and reward. Using this tool, we ensure that your portfolio reflects your investment goals and expectations.

1

### Get to Know Your Financial Goals

Fill out some basic information so we can get to know you a little better. Select up to three financial goals.

2

### How Much Risk Do You Want?

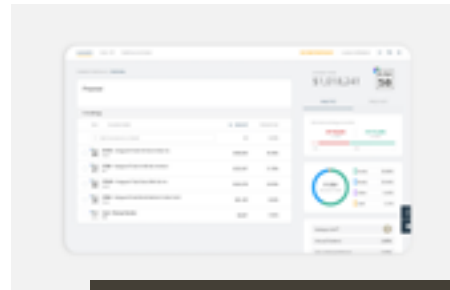

We'll take a quantitative approach to pinpointing your Risk Number by going through a series of objective exercises based on actual dollar amounts.

3

### How Much Risk Do You Have?

If you've already got an investment portfolio, we can quickly import it, show you, and see if your Risk Number aligns with your current amount of Risk.

4

### How Much Risk Should You Have?

If we choose to work with each other, we'll use all these factors to build an optimized portfolio that fits your risk tolerance and goals, giving you the best chance for success.

5

### How Much Risk Do You Need?

We can chart a path to achieving your goals using a simple, intuitive approach. We'll visualize the probability of successfully achieving those goals and adjust in real time.

Together, we can take the guesswork out of your financial future.
